

Parents are Encouraged to Get Involved in PDS Interest Circles

Getting involved in PDS Interest Circles is a great way for parents to make a positive and lasting impact on our school through supporting our children, teachers and program, and strengthening our community. To find out more about how you can get involved, check out the PDS Interest Circles widget on the MyPDS.org dashboard.

Community

If you're interested in helping with initiatives and fundraisers that connect the PDS community, as well as facilitate getting PDS families more engaged through our local community and supporting important regional or global causes, get involved with this circle! Event chairs will also be reaching out about how to get involved in such activities as division potlucks and book fairs.

Arts

This circle celebrates the visual and performing arts, as well as poetry and literature as an integral part of the PDS experience. The arts department and faculty have recommended that the arts circle support the school in the following ways: 1) Building sets for our theater productions, 2) Providing catering for music concerts, and 3) Assisting with PR and marketing for events.

Sustainability

PDS has a demonstrated commitment to making our campus more sustainable and encouraging students (and families!) to be stewards of the earth. This circle will support this work by creating a space where PDS parents engage with each other, students, faculty, and the larger community around sustainability issues and initiatives.

Athletics

PDS fields 17 interscholastic teams and is a member of the Hudson Valley Athletic League and Western New England Prep. This circle will focus on further building sportsmanship, school pride, team building and helping our sport's program flourish.

Making & Tech

Our school has always been a leader in the Make movement and early adopter of technology as a valuable tool to facilitate learning. Join us in supporting the school through creativity and making!

What's Your Passion?!
